### Video Permission Form

Andover Public Schools will be utilizing online resources to provide continuing educational support to students. That includes, where appropriate, video conferencing between educators. In order to ensure that every child in the class can participate and/or view a session, online instruction that is video and/or audio will be recorded by the action of the educator, so that the primary focus of the video and audio recording will be on the educational supports provided, not on the students in the class. However, questions and comments asked and spoken by students are also recorded.

The following services are available to each student as part of Andover School District's online presence:

- Google Meet** - video communication tools  
<http://www.aps1.net/2120/APS-Google-Policy-FAQ>
- FlipGrid** - password protected online tool for video discussion/reflection  
<https://legal.flipgrid.com/privacy.html>
- Code.org** - online website that supports student learning of computer science  
<https://code.org/privacy>

## Video Permission Form Review

- **Select the permission type for each child(ren) at the bottom of the page. Enter your name and click on the ‘Submit Form’ button. You will then be brought back to the Aspen Family Portal.**

with the above requirements, please be aware that your decision to eliminate access to these tools may significantly affect your student's ability to work coll hamper the development of skills necessary to live and work in this increasingly digital world. Andover Public Schools is actively exploring alternative mean remote learning.
