Drexel University online Math Forum program and I further understand that my child's first name and last name initial may be published on the Drexel Math programs awards section that recognizes students who have distinguished themselves. I further understand that at any time, you as parent(s)/guardian(s) have the right to request that the Andover Public Schools and Drexel University remove your child's personal information from the program and web site by notifying your child's Math Teacher in writing or by emailing Drexel University or by contacting Drexel via postal mail or telephone.

By signing this form I am consenting to my child's math teacher registering him/her for participation in the Drexel Math Forum.

Parent/guardian signature: _____ Date: _____

Print name: _____ Telephone: _____

The Math Forum @ Drexel

Why Drexel?

The [Math Forum](#) is one of many ways in which Drexel demonstrates its excellence in preparing students for success in today's world. Drexel is known as a leader in the use of technology in education and was among the first universities in the nation to offer Web-based courses and degree programs. The renowned co-op program provides real-world experience and professional preparation.

The Math Forum helps students learn mathematics through the use of the Internet and innovative technologies. It also gives advanced students an opportunity to pursue their interests as well as use their skills to help others.

The services listed on the left can help you with your learning: Ask Dr. Math, Problems of the Week, and the Internet Math Library. Through many of these services, you can communicate directly with teachers and mathematicians, students of all ages, and professionals using math in their jobs.

Privacy Policy

If you are under 13, please have your parents/guardians read this policy and approve your use of our services. If you are under 13 and you participate in the Problem of the Week services or subscribe to any other Math Forum services, please have your teacher or parent register you for participation. At any time, your parents have the right to request that we remove your personal information by [e-mailing us](#) or by contacting us via postal mail or telephone (800)756-7823.

Privacy Policy: This is how we will handle information that we learn about you from your visit to our Web site. The information we receive depends upon what you do when visiting our site.

If you visit our site to read or download information from our Web pages:

- We collect and keep track of only the following information about you: the name of the domain from which you access the Internet (for example, aol.com); the date and time you access our site; and the Internet address of the Web site from which you linked directly to our site. We may use your IP address to help diagnose problems with our server, and to administer our Web site. Your IP address may also be used to customize the information that you receive in order to make it most relevant to you.
- We use the information we collect to measure the number of visitors to the different sections of our site, to help us make our site more useful to visitors, and to place advertisements and sponsorships that enable us to continue to offer our services free of charge.

If you identify yourself by sending an email or by providing your email address in order to participate in one of our services such as Ask Dr. Math, Problems of the Week, Teacher2Teacher, mailing lists and discussion groups, the Math Forum Internet Newsletter, and our Webmaster and online help:

- We use personal identifying information from users in various ways to provide the educational services and support you seek. We use your email address in order to respond to your questions and submissions or to maintain your subscriptions. We also use email in order to identify who you are and make it easy for you to be a regular user of one of our mentored services.
- From time to time we conduct surveys of users for the purpose of evaluating the use of our Web site, and we may use your information to contact you for more information.
- When we archive and publish solutions from the Problem of the Week services, we highlight the names of the students and schools with noteworthy submissions on our Web pages, and these may be read by the general public. Teachers who have registered for a Problem of the Week "teacher account" with us may also view information concerning the number and date of submissions entered by students from their school to the Problem of the Week projects. We publish selected questions and responses from Ask Dr. Math, Teacher2Teacher, and other services. This published material, available to the public, may include your name.

At any time you may request the removal of your name or other personal information and contributions by [e-mailing us](#) or by contacting us via postal mail or telephone (800)756-7823.

We want to be very clear: We will not obtain personal identifying information about you when you visit our site unless you choose to provide such information to us.

We do not sell our customer names, addresses, or other information to third parties for any purpose.

This site contains links to other sites. The Math Forum is not responsible for the privacy practices or the content of such Web sites.

Public Forums This site makes mailing lists, Web discussion forums, and message boards available to its users. Please remember that any information that is disclosed in these areas becomes public, and that you should exercise caution when deciding to disclose your personal information. The Math Forum reserves the right to remove any posting that its editors consider inappropriate.

If you have any questions about this privacy statement, the practices of this site, or your dealings with this Web site, please [contact us](#).
