Introduction

Welcome to the 2019-2020 school year! As you will see from the schedule below this year we have extended the school day by 15 minutes. Each day will start at 7:44 and end at 2:20. Please plan accordingly.

This At a Glance guide is to help you understand the various components of the 7+H schedule. For more information please go to www.aps1.net/1896/7H-schedule or www.aps1.net/quicklinks.aspx?CID=14. These two webpages have a plethora of information to help you understand the schedule.

Best wishes for a great school year!
Sincerely,

Philip Conrad, Principal

Benefits of the 7+H Schedule

- The 7 + H high school schedule promotes yearlong continuity of instruction.
- Yearlong courses will minimize gaps in content continuity, students will take one course after another with no delay.
- Yearlong courses allow students time to process and retain information.
- The schedule includes varied instructional time periods (60 and 80 minutes) that provide flexibility in instruction.
- Rotating time periods means classes are offered at different hours of the day thereby optimizing learning for all classes.
- The schedule incorporates H Block a personalization period allowing students to:
 - Deepen their relationships with teachers;
 - Participate in activities designed to improve students' social-emotional learning;
 - Stay on track in their learning and maximum their learning potential through individualized support during the H block;
 - Cultivate a culture of curiosity that enables teachers and students to explore areas of mutual interest
- The schedule incorporates teacher to teacher collaboration time within the school day. It provides time for:
 - Common planning within a department or content strand to discuss curriculum, instruction, and assessment;
 - Collaborative data analysis of student work;
 - Planning interdisciplinary teaching, project based units, and other district initiatives

Snow Day Protocol

In preparation for the 7+H Schedule to begin on August 28, 2019 we have set the rotation of the eight (8) day cycles. The cycles will begin on the first day of school and run throughout each semester. At this point each semester is made up of 10 eight (8) day rotations, two (2) or three (3) additional days, and three (3) or four (4) half days.

Inevitably this rotation will be impacted by inclement weather. To that end, we have created a sixty, ninety, and one hundred and twenty-minute delay schedule and a plan for days where school is cancelled due to weather (snow days).

To keep the rotation as intact as possible for scheduling field trips, special programs, speakers and events we are proposing that when we close for weather (snow) we allow for one small disruption by running the day in the rotation that was scheduled for the snow day and skip the next day in the rotation.

For example: Monday, December 16, 2019 is a Day 5. We leave that day with our materials for Tuesday, December 17, 2019 is scheduled to be a Day 6. It snows and school is cancelled on Tuesday, December 17, 2019. When school reopens on Wednesday, December 18, 2019 originally scheduled to be a Day 7 the day is now scheduled to be a Day 6. Thursday, December 19, 2019 is a Day 8 and puts us back on schedule. Therefore, it is Day 7 that is dropped from the schedule for the snow day. Day 7 will be made up later during an X, Y, or Z day at the end of the semester. This will allow teachers and students to leave the building prepared for the next day in the rotation regardless of the weather and it allows us to get back into the rotation without disrupting the entire rotation.

Example:

Monday, December 16, 2019 is a Day 5

Tuesday, December 17, 2019 is scheduled to be a Day 6. It snows and school is cancelled

Wednesday, December 18, 2019 originally scheduled to be Day 7 the schedule now is scheduled to be Day 6

Thursday, December 19, 2019 is a Day 8 and puts us back on schedule

Therefore, it is Day 7 that is dropped from the schedule for the snow day

Day 7 may be made up during an X, Y, or Z day at the end of the semester

Half Day Schedule
